

## ECOHUMIC®

### Content

Extracts of Humus containing 12% Humic Acid.

### Features-

1. Humic acid essentially helps to move micronutrients from soil to plant.
2. It helps to balance pH of soil.
3. It maintains easy circulation of air in the soil.
4. It increases water holding capacity in soil. Increase in yield up to 70% accompanied by a reduction in the use of fertilizers and pesticides up to 30% is achieved with help of Humic Acid.
5. Humic acid is not a fertilizer but a compliment to fertilizer.
6. Due to these properties, humic acids are known to produce three types of effects: physical, chemical and biological.
7. One liter of Ecohumic is equivalent to ten tons of compost, farmyard manure. It enhances uptake of N, P, K, Fe, Zn, Mn, B.
8. It is absolutely residue free root developer and can be used to cultivate residue free organic farm produce.

### Target Crops-

Grapes, Mango, Sugarcane, Cotton, Tomato, Pulse crops, Cereals, Mustard, Sunflower, Soybean, Onion, Ginger, Turmeric, Banana, Peas, Litchi, Cauliflower, Okra, Apple, Capsicum, Flowers, all other Vegetables and Fruits crops.

### Target Work-

To provide Macro and Micronutrient to Fruits, Flowers and Vegetables crops.

### .Dosage-

2 ml per 1 liter of water for spraying

### Packing-

100 ml, 250 ml, 500 ml, 1 liter and 5 liter
